

Training different CNN model (AlexNet, VGGNet, ResNet, GoogLeNet) with the given blotch, normal, rot, scab data, we get different accuracies. The differences in accuracies for different CNN models are given below:

CNN Architectures	Accuracy (100 Epochs)
AlexNet	25.0%
VGGNet	25.0%
ResNet	64%
GoogLeNet	67.19%
